

# SERHII DEMCHENKO

FRONTEND / FULLSTACK DEVELOPER

## SUMMARY

I'm FullStack Developer, looking for a full-time position in a company. I am focused on JS, React, HTML. I have practical experience using Agile and Scrum methodology while working in commands projects at GOIT Academy Fullstack Developer course. I am constantly working on improving my technical skills, and I want to become a professional in front-end development. I'm responsible and loyal, learn quickly, value time. Ready for challenges and interesting projects.
